

**DEPARTMENT OF PG STUDIES IN FOOD SCIENCE AND NUTRITION
INDUSTRIAL VISIT**

DATE: 11/02/2023

VENUE: Anatomy Museum, Kasturba Medical College for Basic Science, Bejai. Mangalore

STAFF IN CHARGE

1. Ms. Indira Badya
2. Ms. Ameera

TOTAL NUMBER OF STUDENTS PARTICIPATED: 26

OBJECTIVE OF THE ACTIVITY

- To provide the students with a broad-spectrum knowledge on the anatomy of the body and the fetal abnormalities

OUTCOME OF THE ACTIVITY

- The students gained a great amount of knowledge pertaining to the position and importance of various organs of the body

DESCRIPTION OF THE ACTIVITY

An educational visit to the Anatomy Museum, Kasturba Medical College for Basic Sciences, Bejai, Mangalore was organized for the open elective students of Nutrition for Health subject on 11th February 2023, by the department of P.G Studies in Food Science and Nutrition, Besant Women's college.

The purpose of the visit was to give exposure to various parts of the body which play an important role in the growth and development of the body. The students observed the various sub-sections namely, the digestive system, central nervous system, respiratory system, reproductive system etc in the museum which had well-preserved specimens as well as models of all parts of a human body and animals with well-framed descriptions for a better understanding. Another section that caught the attention of the students was the section where specimens of fetus having abnormal anomalies such as cyclops, anencephaly, etc were preserved.

The well-structured, detailed and organized museum enabled the students to observe the specimens in the museum which helped them strengthen their knowledge on the anatomy of the human body and importance of health and how lifestyle related diseases can increase the mortality rates.
