REPORT ON NEWSPAPER ROLLING CRAFT COMPETITION

AIM:

To conduct a newspaper rolling craft competition for the students of 2nd MSc FSN.

OBJECTIVE:

1. Educate students about the importance of recycling and upcycling
2. Inspire students to creatively repurpose waste materials.
3. Promote peer interaction and teamwork through group projects and activities.

OUTCOME:

1. Increased environmental awareness and sustainable practices.
2. Recognition of innovative approaches to reducing waste and promoting sustainability.
3. Improved teamwork and collaborative skills among participants.

REPORT:

The Department of PG Studies in Food Science & Nutrition organized a newspaper rolling craft competition for the 2nd MSc students of the Besant Women's College, in connection with *World Environment Day* on the theme "*Upcycle for a Greener Future*" on *05th June 2024*. The students were asked to upcycle the old newspapers into décor items (vases) in 1-hour time limit. The faculty in charge of the competition was Ms. Nireeksha V, Assistant professor of the MSc FSN department. A total of 18 students participated in the competitions and displayed their creative skills & improved their teamwork with their classmates along with having a chance to display their craft skills. On the completion of the program, the students were provided with the link to the feedback & e-certificates were given to the students who had successfully filled out the feedback form. The competition was judged by *Ms. Swathi KS, HOD, Department of Physics*, and *Ms. Pavithra, Office Superintendent of Besant Women's College, Mangalore* considering aspects like color combination, neatness & overall visual impact. The first place was secured by Aysha Sifana & Balkish Zulfa &

second place by Sathvi KG & Neha Rawal of 2nd MSc FSN. The results were announced on **06th June 2024**.
