MANGALORE UNIVERSITY

Mathematics Syllabus for B. Sc. (Credit Based Semester System)

(New Revised Syllabus)

PREAMBLE

The Mathematics syllabus for B. Sc. in use at present was introduced from the academic year 2012-2013, by modifying the earlier syllabus, by introducing new text books and reference books. However, due to substantial changes in the syllabus of the pre-university course of Karnataka, introduced from the academic year 2012-2013, the U.G.B.O.S. decided to update the B. Sc. syllabus to keep pace with recent changes in the syllabus of pre-university course. The Board observed that important topics like Group Theory, Number Theory, Complex Analysis etc., are not given proper weightage in the present pre-university syllabus and hence it is necessary to frame a new syllabus for B. Sc. for introduction from the academic year 2014-2015. The following revised syllabus for B.Sc. Mathematics (Credit Based Semester System) of Mangalore University, framed by the U.G.B.O.S., has also taken into consideration the syllabus recommended by the UGC curriculum development committee and syllabi of other Universities of Karnataka. The syllabus is meant to be introduced from the academic year 2014-2015 and it is framed as per the prevailing guidelines of the Credit Based Semester System.
